About us:

The Card Acquiring Service is one of the collection mechanisms the Fiscal Service manages for Federal departments and agencies. Through the Card Acquiring Service, the Government collects obligations via credit or debit card transactions. All Federal agencies must process card transactions with our Financial Agent Fifth Third and their Card Processor, Worldpay.

The objective of this service is to increase electronic collections received by the Government, and process these transactions in an efficient, timely and cost-effective manner. Card acquiring services are provided at both domestic and international locations.

For any equipment and supplies ordered from Worldpay, you will be directly invoiced by Worldpay for all items not paid for at the time of purchase. To minimize instances of these invoices instruct your Agency Merchant Locations (the place of sale) to pay with a credit card when ordering supplies and equipment from Worldpay. Confirm that locations are calling 1-866-914-0558 and not the general Worldpay customer support number. Calling the Government Support line will ensure your locations receive support tailored for Federal agencies.
